

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI S.S. PALANIMANICKAM): (a) and (b) As per the Resolution relating to Quota and Voice Reform in the International Monetary Fund (IMF) adopted on September 18, 2006, it was decided for a modest *ad hoc* increase in the quota, and therefore voting power, of four countries, namely, China, Turkey, South Korea and Mexico (but not Argentina). As a result of such increase in voting power of these four countries, the voting power of all the remaining countries, including India, has decreased relatively, though marginally.

(c) and (d) This issue was taken up by International Monetary Fund in September, 2006 through a Resolution. India was among the twenty-three (23) countries that voted against the said resolution. However, the members representing 90.6 per cent of the total voting strength voted in favour of the resolution. The resolution was adopted because under the IMF's Article of Agreement, 85 per cent or more of the voting strength of the IMF is required to vote in favour of such resolution for its adoption.
